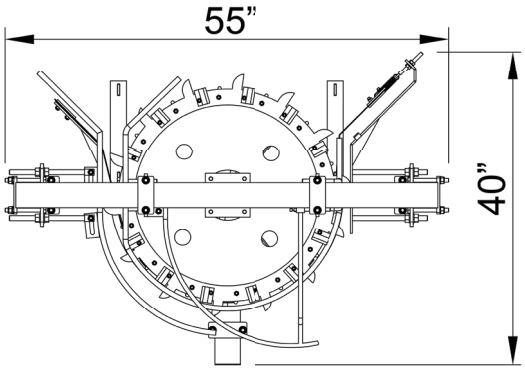
Bird Unloader

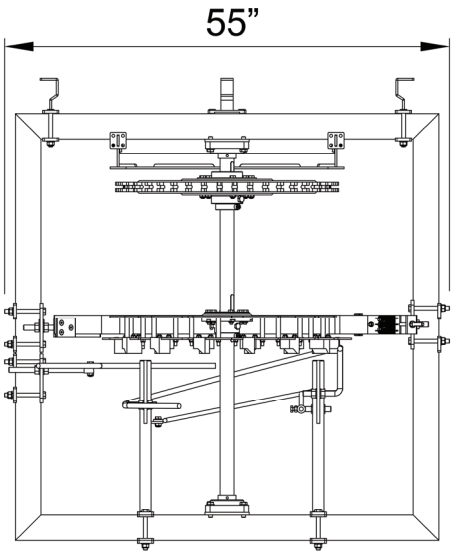
MT-106

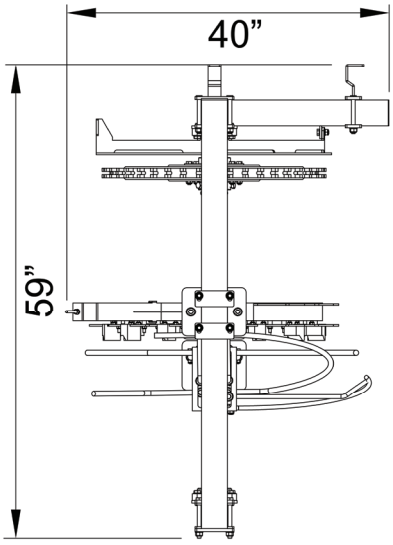
- Up to 250 Birds/Minute
- Stainless Steel
- Easy-To-Operate Height Adjustments

Bird Unloader MT-106

Technical Advantages







The Bird Unloader MT-106 is designed to automatically unload birds that have been hanging by both legs in a shackle during the evisceration process from the overhead line.

As the birds move through the Bird Unloader, they are pushed out of the shackles.

Specifications:

- Capacity: Up to 250 birds/minute
- Minimum Bird Weight: 1.9 lbs | 8 Kg
- Maximum Bird Weight: 7.7 lbs | 30 Kg
- Available in 6” or 8” centers
- Structural Material: Stainless Steel and other non-corrosive materials.
- Emergency: Emergency Button
