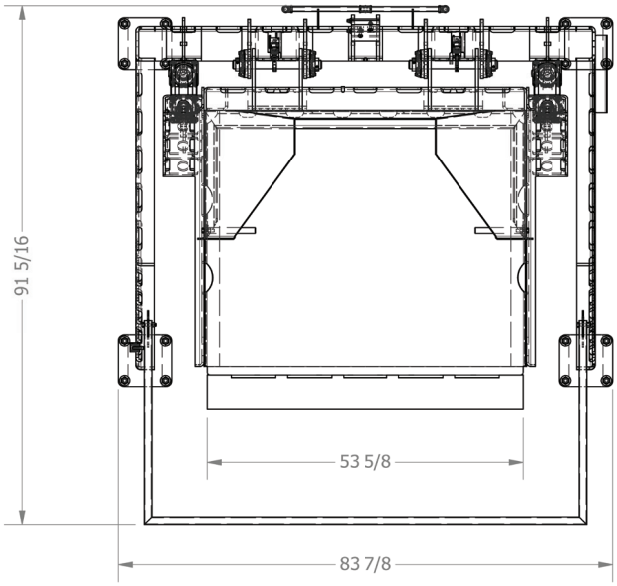
- Optional automatic low fluid level and high temperature shutdown
- Integrated ribbing and open slots to minimize foreign material contamination
- Open design to improve cleanliness and decrease sanitation time
- Available options: Standard, Low Profile and Side Loading

Combo Dumper
Technical Advantages



Combo Dumper
Our single-stage combo dumpers utilize a sanitary robust design for the use in harsh environments to dump plastic vats, tubs, and cardboard combos. With dual hydraulic cylinders and optional power pack, integral safety switches and access shields it is a valuable addition to any process. Built of heavy-duty stainless steel it is easy to clean and maintain.

Specifications:

- Electrical 230/460/3/60
- Hydraulic 1000 psi
- Weight limit 3000 lbs
- Dimensions are customized to fit customer needs
